Fuel & Trip Cost Tracker: Screen Layouts

Material 3 layouts for Jetpack Compose. A deep-blue primary carries the actions, green tertiary marks savings and efficiency, and cool neutrals keep the dashboard calm. Each screen is shown in light and dark mode.

LAYOUT SPECS

Navigation

- Material 3 `NavigationBar` with two destinations
- Pill indicator on the selected tab, 80dp tall
- One top app bar whose title follows the selected tab

Calculator

- Metric / Imperial segmented toggle swaps the units
- Vehicle chips pick the vehicle to save the trip under
- Outlined fields with tonal icons and unit suffixes; decimal keypad
- Tap the efficiency unit (⇄) to switch between km/L and L/100km
- Result card updates as you type; Save stays disabled until all three fields are valid

History

- `LazyColumn`: a stats header item, then trips grouped by month
- Card shows vehicle, date, distance, efficiency and total cost
- 16dp side gutter, 12dp gap between items

Ad placeholder

- Fixed 50dp banner (320×50) plus 8dp vertical padding = 66dp
- Sits between the content and the nav bar, in the Scaffold `bottomBar`
- The slot is always reserved, so content doesn't jump when an ad loads or fails
